

## In Class Lab

# JS Challenge Exercise

## Directions

- You will be put into groups of 4 or 5 (*See your group in People > JS Challenge Exercise*)
- Each group is assigned a “Behavior”
- Create an HTML and an external JS page to display this behavior
- Use AI or any resource to create this
- You and your group will present this. The presentation must include:
- Show what you created (end result)
  - Explaining how it works
  - Explain the resources you used to make this
  - Break it and show it in the console (with break)
  - Then fix it and show it in the console (clean)

## Behaviors per Group

- ◦ Group 1 = An image Gallery with Pop Up (at least 4 images)
- ◦ Group 2 = Tabs (at least 3 tabs)
- ◦ Group 3 = Accordion for an FAQ page
- ◦ Group 4 = Pop up Ad as you scroll down the page it will automatically pop up
- ◦ Group 5 = Accordion for an FAQ page
- ◦ Group 6 = Pop up Ad as you scroll down the page it will automatically pop up
