New Attempt

- Due Mar 4 by 11:30am
- Points 35
- Submitting a text entry box or a website url

--- Term Project Deliverable ---

Version 1

This release should include all your website content, including styling (CSS) but excluding JavaScript, and jQuery. All web pages and navigation must be fully functional. Avoid treating this as a "first draft." The more effort you invest now, the less work you'll need later, allowing you to focus on site aesthetics. Create a folder named TPV1 within your "webtech" repository for all project content, and push it to GitHub to submit. (Or you can create a separate GitHub repository for this - but I do want the naming conventions to be as stated here).

!

Important

When you are done, make a copy of your TPV1 folder and call it TPV2. Make all subsequent changes to the files in TPV2 until TPV1 is graded. This way, when you upload files to the server after submitting TPV1, the content in TPV1 will not change. You will have a new folder called TPV2 that is needed for your second release. Please do not make any changes to the content in TPV1 folder on the server until grading is complete.

Term Proj V1

Criteria	Ratings					Pts
Quality and quantity of content At a minimum, your site must meet the objectives stated in your proposal and its content must conform to your proposal. You may make additions, but if you have any deletions, they should be noted in HTML comments (not viewable with the browser) just after the &amp;lt;head&amp;gt; tag on your home page.	**15 pts** **Full** **Marks**	**12 pts** **Good** **Work**	**10 pts** **Fair** **Work**	**7 pts** **Poor** **and** **Needs** **Work**	**0 pts** **No** **Marks**	15 pts
Contains all Required Pages For example, home, about me, and contact, etc.. The credits page and site-map page are not due until Version #2.	**2 pts** **Full Marks**			**0 pts** **No Marks**		2 pts
Lists Your site contains a bulleted or numbered list with one or more indented sub-lists.	**2 pts** **Full Marks**			**0 pts** **No Marks**		2 pts
Images Images are used adequately and appropriately and show up properly with proper alt tags	**3 pts** **Full** **Marks**	**2 pts** **Minor** **Issues**		**1 pts** **Issues**	**0 pts** **No** **Marks**	3 pts
Home Page The home page is called index.html	**2 pts** **Full Marks**			**0 pts** **No Marks**		2 pts
Broken Links There are no broken links - all pages are linked properly.	**3 pts** **Full** **Marks**	**2 pts** **Minor** **Issues**		**1 pts** **Issues**	**0 pts** **No** **Marks**	3 pts
Navigation Menu The navigation menu is found at the same location (generally at top or left) on each page of your site and	**2 pts** **Full Marks**			**0 pts** **No Marks**		2 pts

is visible when each page loads. This requirement is an exception to the message that styling is not graded in this release.			
Naming Conventions All names for all files and images and folders are using best practices.	**2 pts** **Full Marks**	**0 pts** **No Marks**	2 pts
Video At least one video exists on your site. It does not have to play automatically. If the video is not on the home page, an HTML comment on the home page, invisible to viewers, lets me know where I can find it.	**2 pts** **Full Marks**	**0 pts** **No Marks**	2 pts
Comments Comments are included in your code indicating important things as well as any AI Generated code.	**2 pts** **Full Marks**	**0 pts** **No Marks**	2 pts
Contact Form (Extra) You can earn up to 2 points for this as extra credit. The contact page contains a form that includes radio buttons and/or check boxes, text and text area fields, and a &amp;lt;select&amp;gt; tag.	**0 pts** **Full Marks**	**0 pts** **No Marks**	0 pts
